Farrel Lumumba

ICT Student & Freelance Digital Creator · FL Tech Studio

Nairobi, Kenya collinspharaoh79@gmail.com +254 700 171 187 github.com/pharaoh64

PROFESSIONAL PROFILE

Motivated ICT student and freelance digital creator operating under **FL Tech Studio**, based in Nairobi, Kenya. Focused on practical IT support, web development, computer networking, cybersecurity, document preparation, data entry and digital content editing. Building hands-on experience through personal projects and a growing online portfolio, with a commitment to reliable service and continuous technical growth.

EDUCATION

ICT Diploma — Level 6

Currently pursuing an ICT Diploma covering computerised database systems, computer programming principles, communication skills and entrepreneurship.

TECHNICAL SKILLS

ICT Support	Computer troubleshooting, software use, file management and digital problem-solving.
Web Development	HTML, CSS and JavaScript fundamentals; published sites via GitHub Pages.
Office & Admin	Data entry, document formatting, spreadsheets and organised digital records.
Digital Content	Video editing and social-media content creation and scheduling.
Networking & Security	Foundational computer networking and defensive cybersecurity learning.
Dev Tools	Git, GitHub version control and Python project development.

PROJECT EXPERIENCE

FL Tech Studio — Freelance Portfolio

Designed and published a personal portfolio website under the FL Tech Studio brand. Showcases data entry, document formatting, video editing, social-media support and ICT services.

Personal ICT Projects

Developing practical skills through programming exercises, Windows diagnostics, system monitoring and defensive security experiments. Currently building a Python-based AI assistant (JARVIS).
